PREPARED ONLY BY

J. B. ZELLER & CO., Philadelphia, Pa.**Wedded Over Her Mother's Grave.**

The most unique marriage ever performed in Baltimore took place Monday within the boundaries of Green Mount cemetery over the graves of the parents of the bride. The groom was Colonel Hendrick von Stamp, ex-minister of Denmark to the United States, and the bride was Miss Mildred Hammond daughter of the late General Hammond. Six carriages were occupied by the wedding party, but the vehicles were impeded to be a funeral cortege as they slowly moved through the cemetery. When the Hammond lot was reached the graves were strewn with flowers and the wedding was quickly performed the bride standing upon the grave of her mother and the groom upon the grave of the bride's father. The bride is one of Maryland's oldest families, being a remote descendant of President George Washington. She is forty and the groom forty-four years old.—Baltimore Letter.

The Human Journey of a Lathing Nail.

About fifty-four years ago Washington Megahan, contractor and builder of this place, was working at his trade, that of a plasterer, in Blair county, when he accidentally swallowed a lathing nail. He was very much alarmed about the accident at the time, but as he felt no evil results from the extraordinary diet, in the course of two or three weeks he had forgotten all about it. Recently, however, Mr. Megahan has felt a peculiar sensation in the palm of his left hand, and one day last week he was able to feel the outline of a small nail, and then it was that he remembered having swallowed the lathing nail fifty-four years before. The nail is rapidly working its way through the flesh of his hand, and when it has worked up under the skin Mr. Megahan will have a physician remove it.—Somerset Herald.

One Year's Work.

At the twentieth anniversary festival of the Provident Surgical Appliance society in London, Dr. Bond in the course of his speech said that he knew of only one case dealt with by the society in which any dissatisfaction was given. A young woman was fitted with a Roman nose, but the boys of the college, noticing the change, made her life unbearable. She besought the society to help her, and was supplied with a pretty little contrivance which she wore all day. The contrivance was made of ivory, and several offers of marriage were insured. Dr. Bond's society last year distributed no fewer than 6,223 artificial arms, legs, teeth and noses.—London Letter.

Stopping a Customer En Route.

A Maryland farmer who was waiting for the train to leave for New York was accosted by Detective McDevitt, who finally learned that the gentleman from the rural districts was going to New York with \$400 in his pocket to buy "green goods." The farmer said that the agent of the green goods man would meet him at Summerville. McDevitt sent the farmer back to his family and saved him the loss of his money and the expense of his trip. He says that men may be seen at the depot every day on their way to deal in green goods.—Washington Star.

An Electric Launch.

An electric launch on exhibition at the crystal palace, London, is thus described: The Lily, as she is named, is 38 feet long, and has a beam of 5 feet 6 inches, a depth of 2 feet 10 inches and a draft of 2 feet. The electrical equipment consists of a two horse power motor, supplied with a current from thirty "Epstein" cells. Her weight complete is 2,500 pounds, she will hold from twelve to fifteen passengers, and with one charging will run at her full speed of seven miles an hour for five hours.

Run Down by an Island.

Captain George W. Torrey, of the fishing schooner Alice, reports that his boat was almost run down by a floating island in the Pacific ocean off Cape Flatery. The captain and crew went on it and made partial exploration. There was a hut and a small farm on the island and other signs of habitation, although there were no signs of life.—Seattle Letter.

Australian have had bitter experience

of the mischief which rabbits are capable of doing, and now they seem likely to have trouble of a similar kind from the introduction of foxes.

A sore throat troubled John Haines

of Danville, Ill., and he lost his voice in consequence. After a few days it coughed up a brass pin and his voice was restored.

MISREPRESENTING THE SILVER MEN.

The political situation in Nevada is the same as in Colorado. Here, as there, silver mining is the great industry of the State, the bullion exports far exceeding in value that of all other products combined. Farming and business generally outside of stock or wool growing, is greatly benefited by the mining industry and when times are lively in mining camps, money is plenty among the farmers who supply them with nearly all the necessities of life. Therefore the arguments which are advanced for the unfettering of the people in behalf of an interest upon which the prosperity of the State depends in Colorado, applies equally well to Nevada, as it is as important here as there that the lines should be drawn between the friends and the enemies of free coinage. The action of the people in both States is similar, and by substituting Nevada for Colorado and the name of the Wall Street organ for the Denver Wall Street organ, the following from that able advocate of the silver cause, the Denver News, describes the situation here:

"The truth is that the mass of voters of Colorado, regardless of previous party affiliation, have enlisted in the war against the Eastern and English gold trust and have resolved to vote against the Presidential nominees of that power. They are convinced that both Cleveland and Harrison are under an influence that would doom Colorado to business pauperism and the agricultural sections of the nation to a condition verging upon servitude. They have made up their minds that silver will never regain its rightful status by arming silver's enemies with a Presidential veto. They must go one step farther and refuse to vote for any candidate for office, great or small, who does not honestly repudiate the enemies of the cause to which they are devoted."

"But, while there is no question about the substantial unity and earnestness of Colorado in behalf of an interest so vital, the fact remains that the attitude of the State is persistently misinterpreted by treacherous enemies in our midst, and that the effect and influence of the independent position assumed by our population is thereby seriously neutralized."

"The Denver Republican, which is a vocal mouthpiece for Colorado's enemies, is a leading instrument in this treachery. It constantly represents the presence of the usual blind devotion to party in this State, and keeps standing in its editorial columns—for goldbug use in the East and South, to discourage the silver movement—the assurance that Harrison will receive the usual Republican majority from Colorado in November. This lie is reiterated with damaging effect in other sections, despite the fact that it would be impossible to convene a representative Republican county convention in any county of Colorado that would not from down the mention of Harrison's name. In the last Republican State Convention, with a representation of over 600 delegates, an attempt to endorse Harrison could only command two votes."

"We cannot too strongly realize the importance of proving the falsity of such bribed newspaper utterances by our future action in behalf of silver. It would be a serious mistake to allow inconsiderate or selfish minorities, or a suborned press, to march longer falsely the true position and convictions of Colorado to the country. The silver interest immensely predominates in the State and its power should be asserted in every political convention that meets, whatever the party or the purpose. Since the people of Colorado, regardless of party, are true to the interests of the State and country, it would be unjust, unwise and gravely detrimental to the cause of bimetalism to permit a handful of self-seeking partisans to belie the commonwealth by using the prestige of party name to help the State's worst enemies. Silver men, Republicans or Democrats, it is your duty to herald Colorado to the country as a State which is in the war against the money power to a finish, and thus encourage a popular movement, the fruition of which will bring financial relief and general prosperity."

The Salt Lake Tribune advocates the election of Harrison and the Salt Lake Herald wants the people to vote for Cleveland. The Federal patronage in Utah is quite a sugar plum, and the Tribune, which now controls it, wants Harrison re-elected, while the Herald supports Cleveland so as to get its share of the pie in the event of his election. In Utah as in Nevada there are those who prefer Federal patronage to the remonetization of silver.

Gladstone in the House of Commons charged that the Government had departed from all precedents in not resigning when the verdict of the country was against them. "The House has met," said he, "but what for?" The Queen's speech tells us nothing. He claimed that the principles of his Home Rule bill were well known and that never had issues submitted to the country been so fully discussed as those decided at the last general election.

BY TELEGRAPH!

News of Importance From Home and Abroad.

AN UNSATISFACTORY FIGHT.

Opium Smugglers to be Prosecuted at Portland, Oregon.

NEBRASKA TO SUPPORT WEAVER

Prisoners Conveyed to Wardner—Washington Republicans—A Suspected Murderer Arrested.

An Unsatisfactory Contest.

SAN FRANCISCO, August 10.—Jim Burge, the Australian, and Billy Lavigne, the Saginaw, Mich., lightweight, engaged in a finish fight for \$1,250 purse at the Pacific Athletic Club to-night. Frank Purcell of Salt Lake and Martin Mulverby of Hayward, Cal., were announced for a ten round go previous to the finish fight. Purcell knocked his man out in the third round. It was announced before the contest that the LaBlanche swing had been barred, yet Purcell tried it twice in the third round, causing a tumult that was only quieted by the police entering the ring. Referee Allen ordered the fight to continue with the result that Mulverby was knocked out and the referee gave the decision to Purcell, as he stated, because of the conduct of Mulverby's seconds in an attempt to assault him. Manager Harrison, however, overruled this decision, holding that the contest was not to the satisfaction of the directors.

It was 9:30 before the fight between Lavigne and Burge commenced. Mike Sullivan was referee. Lavigne had a great advantage in height and reach and during the first three rounds Burge's efforts to land were not successful.

In the third round Lavigne caught Burge with both hands and nearly dropped him, but in the fourth and fifth rounds Burge scored some staggering right handers on the jaw.

From the sixth to the ninth round Burge shaped up better. He would drop his head and take Lavigne's half arm jolts in the face at close quarters without return, but would swing a right on the head or kidneys as Lavigne got away. The next five rounds were slow.

Lavigne avoided close quarters and neither man had gained any particular advantage.

The next three rounds were warmer. Burge's ribs were marked and he had lost a tooth.

From the 17th to the 21st it was much like the preceding rounds. From the 21st Burge went in desperately but Lavigne's shiftness saved the latter much punishment. The contest looked no nearer a conclusion at the end of the 23d than at the commencement.

Lentency Causes Indignation.

MEMPHIS, Tenn., August 10.—The city was thrown into intense excitement when the announcement was made in this morning's paper that Governor Buchanan had commuted the sentence of Colonel H. Clay King, who was to have been hanged on the 13th instant for the murder of D. H. Poston, to imprisonment for life. The Appeal-Avalanche, in this morning's issue criticised severely the action of the Governor in commuting the sentence, and this evening the Sentinel vehemently denounced him in a sensational editorial. These publications aroused intense feeling and a mass meeting was arranged for to-night at which Governor Buchanan was to have been hung in effigy. It was stated the jail would be attacked and the prisoner lynched. So great was the excitement that Criminal Court Judge Dubose issued an order late this evening for the Sheriff of Shelby county to deliver King to the keeper of the Penitentiary at Nashville. King was spirited away this evening and may escape mob violence. The mass meeting promises to be an immense affair, though several influential citizens are trying to put a stop to it.

The Denver Conclave.

DENVER, August 10.—The visiting Knights spent the day in seeing the sights and in social intercourse. The principal event of the day outside of the meeting of the Grand Encampment was an exhibition drill in River Front Park. Only two Commanderies entered, the St. Bernards of Chicago and California No. 1. They will each receive handsome souvenirs. The Knights were mounted and gave a splendid exhibition. The streets presented an animated appearance all day.

Tonight's bicycle parade was a grand success. Nearly 1,000 wheelmen were in line.

The routine business of the Grand encampment was handled expeditiously and the grand officer's reports show that the Knights Templar is in excellent shape, the total membership being 92,791, with cash reserves of over \$25,000.

More Prisoners Conveyed to Wallace. WALLACE, Idaho, August 10.—All the prisoners at Wardner, forty-eight in number, were brought here to-day under the escort of a company of regular troops. The number of prisoners now confined here is one hundred and forty-seven. The examinations are to be resumed to-morrow by United States Commissioner Hoffman.

Opium Smugglers to be Prosecuted.

WASHINGTON, August 10.—Solicitor Hepburn of the Department of Justice, to-day instructed the United States District Attorney at Portland, Oregon, to libel the British steamer Wilmington and prosecute such of her officers as were concerned in the recent attempt to smuggle opium into the United States. The method of smuggling was to pack the opium into barrels with some light material and throw the barrels into the Columbia river at a point about thirty miles below Portland where they were secured by confederates in waiting. The authorities had been watching the vessel for some time, and captured five of the barrels thrown aboard on her last trip, and in this way secured good evidence of her operations.

Washington Republicans.

OLYMPIA, Wash., August 10.—The Republican State Convention assembled to-day. Colonel Howitt of North Yakima was elected temporary Chairman. J. T. Quigley of King county was chosen temporary Secretary. The usual committees were then appointed, after which the Convention took a recess till 3 P. M.

At 3 P. M. the Convention reassembled. The temporary organization was made permanent. The reports of the Committees on Credentials and Order of Business were received and adopted. Pending the report of the Committee on Resolutions the Convention adjourned till 9:30 to-morrow.

Will Support Weaver.

PORTLAND, Or., August 10.—Speaking about the political outlook of his State Governor Boyd of Nebraska, who is making a tour of the West, to-day said: "Cleveland will lose Nebraska because we shall not support him, but will vote for Weaver for the purpose of beating Harrison. We shall put out our national ticket but will support Weaver as there is no hope of straight success."

Ira F. Powers, a furniture dealer, to-day made an assignment for the benefit of his creditors. Assets, \$128,000; liabilities, \$76,000.

A Suspected Murderer Arrested.

SAN DIEGO, August 10.—Constable Wood of Mesa Grande arrived with Francisco Torres, captured at Mesa Grande last evening about dusk. Torres answered the description of the murderer of Captain Wm. McKelvy, foreman of Madam Donjeska's ranch near Santa Ana. On July 31st a reward of \$500 was offered by Governor Markham and Orange county for the murderer. Torres denies being the man wanted.

Race Postponed.

GRAND RAPIDS, Mich., August 10.—The Hat Pointer-Direct race was postponed on account of the heavy track.

A Dog's Political Preferences.

Out at Abilene the man who runs a transfer wagon and smashes the drunks' trunks owns a dog. He is just a common, old fashioned cur. But the dog votes, and votes right. His master every morning upon the arrival of the Texas and Pacific train gets his dogship to show off before the crowd. "Do you vote for Clark?" the canine is asked. He rises up on his hind feet, his front ones high in the air, his body perfectly erect and nods his head. "Do you vote for Hogg?" the master inquires. The dog gets down flat upon the floor and buries his face in his front legs, the very picture of negation. These daily performances have come to be well advertised in Abilene and always draw a crowd. Should Judge Clark be successful that dog will be installed in state at Austin next January, and for two years at least will be the best fed animal in Texas.—Dallas News.

A Boiling Hole.

In Noble county, W. Va., there is a fatbottomed sea, composed of salt water and oil, from which gas escapes with a tremendous roar. Twenty years ago a well was drilled there to the depth of 1,900 feet. Some years later water and gas escaped from the hole with great pressure, tearing out the tubing and cutting a cavern apparently hundreds of feet deep and forty feet in diameter. After it ceased to flow a farmer filled it up and built a barn over it, and again a few days ago a terrific report announced another explosion of the well, oil and water pouring out in abundance. In a single day the hole became fatbottomed and about forty feet wide.—Chicago Herald.

An Animal Tramp.

Mark Twain made the coyote famous—or notorious, if you please. In "Roughing It" the poor animal is described as the sneak thief of the plains, a tramp of the desert. Whether he is as bad as he is painted or not, the California legislature has passed a law to make him a result within the six months just passed 20,299 of these lank animals have been killed in the Golden State at a cost to the government of \$101,995.—Kansas City Times.

WHY HE Heard All Over Paris.

A monster bell, one of the largest of its kind, especially cast for the new Church of the Sacred Heart on the heights of Montmartre, has been completed at Ancey, in Savoy. This immense instrument, which, when hung in its lofty position, will be audible all over Paris, weighs, with its clapper, nearly twenty-five tons.—Paris Cor. London Telegraph.

An Earnest Student.

City Instructor.—If you have such a delightful home in the suburbs, why do you wish extra studies which will keep you in the schoolroom after hours? Suburban Boy.—This is garden weeding time.—Good News.

The Best Man Was Late.

The best man was late at one of last week's weddings, and his appearance after the ceremony had begun created a sensation.—Boston Saturday Gazette.

The Legislative Assembly of Styria.

In Austria, has passed a law forbidding poor people to marry without a special license from the authorities.

A calf with a single eye, no ears and five legs is the joy of Wayne county, Ia.

It is now over a month old and bids fair to grow into full cowhood.

A Monster Structure.

I spent a long time in wandering about the Manufactures building. It is the biggest building ever planned, and it will have one roof covering thirty acres. Senator Ingalls came out and looked at it the other day, and as he gazed, astounded at its immensity, he said: "It is an exhalation! Yesterday it was not, today it is and tomorrow it will have passed away. I can see how you can fence it in, but to roof it almost surpasses human conception!" Think of putting a massive glass and iron roof over a thirty acre field! That is what the men are doing here today, and I saw them at work putting up the great iron trusses which will support this roof.

You cannot conceive the size of this structure without seeing it. Three hundred thousand people could be seated on the floor and in the galleries and 80,000 could be seated on the floor alone. The Coliseum at Rome, with all its galleries, could only seat 87,000 people, and it was never roofed except with canvas. You could put four coliseums on that floor, and two pyramids as big as Cheops would sit upon it side by side and leave room for the Capitol at Washington. If the great pyramid was taken to pieces and carried here its material could be stored in this building and you could look down upon its masses of stone from the galleries.

This building is about a third of a mile long. Thirty great staircases, so wide that two carriages could be driven up them side by side, will lead to wide galleries and there will be a street fifty feet wide running through the center. With its galleries it will have forty acres of floor space, and it takes one even to think of its possible contents.—Chicago Cor. Lancaster Examiner.

Prehistoric Giants.

Near the Mediterranean coast, not far from Nice, are some grottoes which are remarkable for the prehistoric remains found in them. The value of these grottoes as a field of prehistoric research was recognized twenty years ago. They were at that time purchased by Mr. Emile Riviere, who, however, neglected to work them, and sold them again to a quarry master, who, on removing some of the rock, unearthed some of the remains. Since then the grottoes have been in litigation much of the time and no one has been able properly to investigate them.

At present three skeletons found there are figuring in the law courts. One is of a man whose estimated height is 7 feet 9 inches. The head of the skeleton is missing. Another is the skeleton of a woman 5 feet 3 inches tall, and the third is the remains of a youth. These added to previous discoveries make seven skeletons of prehistoric men unearthed up to the present time in these caves. The Italian government has not attempted to exercise any rights in the matter.

Up to 1875 Mr. Riviere had discovered the skeletons of one man and two children, which were some twenty-nine feet below the level of the caves and were surrounded by undoubted paleolithic implements. The bed is a compact one of limestone.—Chicago News.

The Truckee Republican says William Kirby, who is a very sensible fellow, lost one of his arms, the limb having been amputated above the elbow. He says he has more pain in the hand and arm that were cut off than in the portion which remains. Physicians tell him it may be months before he ceases to feel pain in the lost hand and fingers.

The financial question is the only real live issue in this campaign. Though the Force bill and the tariff are discussed in the East the proposition to make times livelier by making money plentier is the only one that attracts much attention.

The Silver State notes the fact that Senator Stewart and Mr. Newlands have enrolled themselves members of the Washoe county Silver League and is glad to see that they are in line with the people.

Thirty-eight Grand Commanderies of Knights Templar constitute the Grand Encampment now holding the Twenty-fifth Triennial Conclave at Denver.

NO POLITICIAN, says the Silver State, can carry water on both shoulders this year.

Silver will not balance with Wall Street.

BORN.

ROBB—In Reno, Nev., August 9, 1892, to the wife of Frank Robb, a son.

CROCKETT—In Reno, Nev., August 10, 1892, to the wife of George W. Crockett, a daughter.

DIED.

HAMILI—At Wells, Nevada, August 7, 1892, Maude Elaine, daughter of Mr. and Mrs. R. F. Hamill, aged 12 years, 6 months and 15 days.

WRIGHT—In Reno, August 10, 1892, Harmon Wright, a native of Sharon, Conn., aged 51 years and 18 days.

Funeral will take place from the family residence, Sierra street, at 4 o'clock to-day. Friends and the public are invited to attend.

NEW TO-DAY.

Reno, August 10, 1892.

MISCELLANEOUS.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

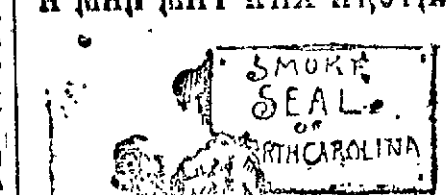

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELIZA A. GOFF, 61 Terrace Street, Boston.

Sarsaparilla

Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

A MAN MAY WAX WROTTL.

When awl his enefgies are employed in a bootless pursuit, but his ran- cer can't last; a pipeful of

She Has a \$25,000 HOTEL,

BREVITIES.

S. A. Hemlin is down from Verdi. Governor Colcord is at Lake Tahoe. The greatest pain reliever on earth is Lightning Fluid.

Yesterday was windy and dusty, the hoped-for prelude of a storm.

Waterilla is harmless and pure, and will purify and beautify your skin.

Congressman Bartine left New York for Nevada last Sunday evening.

Windy and cloudy yesterday and the temperature cool enough for comfort.

Teeth extracted painlessly, \$1; old method, 25 cents. Porter Brothers.

J. B. Mallon of Virginia arrived on the V. & T. last evening on his way to tide water.

Herbert Coffin, V. & T. agent at Gold Hill, arrived last evening on a visit to relatives.

A flat car loaded with large sized water pipe arrived yesterday and was taken to Carson.

Plumbing, tinsmithing and pipe work done at the lowest possible prices by Lange & Schmitt.

A New England supper will be served at Mrs. Flint's this (Thursday) afternoon, August 11th.

Bargains in cook stoves, heating stoves, ranges and house furnishing goods at Lange & Schmitt.

The Verdi bridge is completed and wagons, including the steam wagons, are now running over it.

P. H. Ford, a prominent citizen of the Comstock, who has resided in that city for twenty-five years, died yesterday afternoon.

Emerald Bay, Lake Tahoe. Fine fishing and hunting; fine boating and bathing; first class table. Address, J. M. Smith, 2nd.

Miss Addie Morton of the Carson public schools, who has been visiting Reno friends for several days, returned home on yesterday morning's local.

In spite of the fact of it being a disagreeable evening there were quite a number in attendance at the lawn party given at the Seminary last evening.

Now, and not after election is the time to press the Silver question. Vote for no Wall Street man for President and support no man for any office who does.

Some very rich ore is being taken out of mines in Peavine mountain at present, but the low price of silver discourages prospecting and the development of mines.

The estate of John Singleton, consisting of lot No. 14 in block G below the Opera House, was sold at public auction yesterday, bringing \$1,050. It was bought by Mrs. Jennie Lewis.

There was quite a rise in real estate yesterday, owing to the heavy wind which prevailed, causing the streets to have a deserted appearance, few people caring to venture out.

Steve Thomas, an old resident of Humboldt county, who is now a mining superintendent in Washington near the British line, passed through last evening on his way to Winnemucca.

The Silver State says: "No man or set of men, no rack or set of racks are big enough to put this State in line with the plutocratic candidates—Harrison or Cleveland—and don't you forget it."

Al Helmsdorf went up to the Capital yesterday morning to attend the meeting of Nevada National Guards for the purpose of selecting a Colonel of the Nevada Regiment, and returned last evening.

After the House defeated the Stewart silver bill Mr. McKean, the People's party member from Nebraska, said: "I move if Wall street has no more business for us to do, that the House do now adjourn."

N. H. A. Mason is in from the eastern part of the State. He says stock looks well and the 4,000 or 5,000 head of steers recently imported from Arizona by Mason & Bradley and Russell & Bradley are getting fat.

Geo. Fairchild of Treasurer, foreman of the Times-Review, arrived in town yesterday. Mr. Fairchild confided on his way to Carson to report at the Adjutant General's office to vote for a Colonel and other officers of the Nevada Regiment of National Guards.

Hook Mason says there is but one political sentiment in Central and Eastern Nevada and that is for Weaver and free coinage. Mr. Mason has been a life-long Democrat, but he places prosperity above party and is opposed to Cleveland and Wall Street.

The attempt of the Harrison-Cleveland organ to advocate free coinage and the election of a Wall street candidate is ludicrous. The feat is impossible even for an individual who favors the election of Harrison with his pencil and of Cleveland with his tongue.

M. D. Foley, who is superintending the construction of the new bank building, is having the foundation on the side beneath Mrs. Chamber's building laid with the best quality of cement so as to insure a solid and safe foundation, as the foundation beneath that building is as poor a piece of masonry as one could well conceive of, the rocks being thrown in without the least indication of mortar having been used. It has been difficult to prevent the foundation from caving while the workmen have been putting in the new wall.

THE LIEUTENANT GOVERNOR'S STATEMENTS.

"Farmer" Lets the Light of Fact Shine on Them.

EDITOR JOURNAL:—On a very able Lieutenant Governor has been interviewed by the Enterprise and has come to the conclusion that he will support Mr. Harrison in the present campaign. Mr. Fongade seems to be laboring under the impression that the increase of our circulating medium to \$50 per capita will be attended with dire disaster to the cause of silver. Now, Mr. Lieutenant Governor, you may be quite a young man and possibly do not remember that period in our history when we had free coinage of gold and silver and also had a very large paper circulation, which, at the close of the Rebellion, amounted to about \$50 per capita. That was the most prosperous period in our history. Business was carried on largely on a cash basis; farmers and people generally owned their homes free from incumbrances. All commodities were bringing good prices, business was brisk and there was plenty of work for everybody at good wages. All this has been changed, the currency has been contracted, silver has been demonetized, the property of the country has been bonded and mortgaged, and by class legislation we have produced a few thousand millionaires and millions of tramps, bankrupts and paupers. Now, Mr. Lieutenant Governor, you propose to stay by this party which has brought about this condition of affairs. Probably you do not realize the situation. A man in your position, with a fixed income of \$2,700 per annum as long as you retain your present office, is not in condition to comprehend the situation. But the farmers and producers, who on account of the depressed condition of trade caused by plutocratic and class legislation, are forced to sell their products below the cost of production. These are the people who realize the situation and these are the people that are supporting General Weaver in the present campaign. Your assertion that General Weaver is injuring the cause in this State by his speeches is very far fetched, and his vote next November will show you to be a very erratic critic.

RENO, August 10, 1892.

First Nevada Regiment Officers.

At the meeting of the officers of the Nevada National Guards, held yesterday in the Governor's office in the State Capitol for the purpose of electing officers of the First Regiment of Nevada National Guards, Colonel F. C. Lord of Virginia City was elected Colonel, Colonel Wm. Sutherland of the same place was elected Lieutenant Colonel and Captain Phil Reiber of Tonopah was elected Major. Officers from every company in the State were present except from the Winnemucca Guards. The outlook for the encampment to be held on the 23d instant looks favorable.

Serious Accident.

Monday afternoon Ulysses Brule, son of D. Brule, had been hunting near the wood camp seven miles from Spooner's Station and started to the office to put away the gun when he stumbled over a log and the gun was discharged. The bullet entered the fleshy part of the boy's thigh, inflicting a very painful wound. Mr. Brule brought the boy to Carson during the night and had the wound dressed. The ball has not yet been located, but the boy is resting comfortably. —Carson News.

Death of an Old Citizen.

Harman Wright, one of the oldest residents of Washoe county, died yesterday morning at his residence on Sierra street. He was 81 years and 15 days old. Born in Sharon, Connecticut, he came west in the early fifties, and settled at Reno, in 1868, of which place he has since been a continuous resident. Deceased was the father-in-law of John Sunderland, and the father of Mrs. Martha Lovejoy of this place and of Frank Wright of San Diego.

Returned From Washington.

C. D. Van Duzer, Nevada Land Agent at Washington, returned yesterday from the District of Columbia. He has recently secured the leasing of 50,000 acres of land in Eureka District No. 13 at the U. S. Land office. This makes a total of 327,000 acres of land which Mr. Van Duzer has got through, the interest upon which will pay yearly into the State Treasury \$3,819.

A Narrow Escape.

At the State Line Mill the hostler who sleeps in the cabin at the base of an overhanging cliff came near losing his life by a portion of the cliff caving down and burying the cabin. A few rocks falling a moment previous to the grand crash awoke him, and springing out of bed and rushing out of doors he was just in time to escape with his life. The cabin was crushed in with the weight of stone.

It Won't Do.

You may bribe the appetite but you cannot bribe the liver to do its work well. You must be honest with it, help it along a little now and then with a dose of Simmons' Liver Regulator. The liver becomes sluggish sometimes and needs some stimulation to keep off those attacks of indigestion and biliousness. A good active liver promotes digestion and prevents malaria.

All For Silver.

S. T. Boston, the red hot silver man of Silver City, and the Enrolling Clerk of the Silver League, has succeeded in getting up a free coinage ball in Silver City, August 12th, the proceeds of which are to go toward paying the campaign expenses of the Silver party. All should attend who have the interests of the State at heart. —Carson Appeal.

J. L. Stevenson returned last night from Carson, where a presentment was found against him by the Grand Jury, the charge being that he said to Commissioner Bray in substance "that if he (Stevenson) received the contract for erecting a windmill and tank there would be a rebate or reduction, and concluded by saying they all do it." Mr. Stevenson is to be examined before a Justice of the Peace next Tuesday.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

RENO PUBLIC BUILDING BILL.

It is Reported Favorably by the House Committee.

Representative Bartine, under date of August 6th, writes "General Powning from Washington: "The Reno public building bill was reported yesterday. I was almost in despair. As a last resource I went around to the individual members of the Committee and obtained the signatures of a majority to the report, which I proposed myself. This being done, Mr. Backhead, the Chairman, caused the report to be filed. We are now on good fighting ground for next Winter. I think we will get it then."

Better Than a Savings Bank.

If you have faith in the future prosperity of the city of Reno, Nevada, invest in well located town lots and you will surely double your money in the next few years. If you cannot buy a lot yourself you can take stock in the Reno Real Estate and Investment Co., and participate in the investments that this corporation will make. The company propose to purchase centrally located property and erect suitable buildings thereon, obtaining immediate revenue from rents and receiving all benefits from increase in values.

RENO REAL ESTATE AND INVESTMENT COMPANY
Capital stock, \$100,000
20,000 shares, \$5 per share
President, C. T. Bender
Vice President, Sol Levy
Secretary, F. M. Lee
Treasurer, First National Bank

DIRECTORS.

Sol Levy, General G. F. Territtin, A. G. Fletcher, C. C. Powning and C. T. Bender. The shares of stock are for sale and books now open. Monthly payments 10 cents per share, fully paid up in 50 months. This stock should then be worth fully double its par value. For further information apply to any officer of the company, Director or Agent. Over 5,000 shares are now subscribed.

The Independent says a man named Baker arrived in Elko last week on the way from Oregon to Denver with his family, consisting of a wife, who is totally blind, and four children. One of the children was too sick to travel so the husband took three horses and an emigrant wagon and left his family with a single horse and buggy and \$2.75 in money. Dr. Melus is attending the sick child and the attention of the county commissioners has been called to the destitute condition of the family.

Special Meeting.

There will be a meeting of the Merchants' Retail Association at the store of Folson & Wells, on Friday evening, August 12th, at 8:30 o'clock sharp. All are expected to be present as business of importance will have to be attended to.

Jno. SUNDERLAND.

August 9, 1892.

The annual statement of the Union Building & Loan Association is published in this morning's JOURNAL. It is certainly a very favorable showing, over 43 per cent per annum being realized. In three years the association has enabled twenty-five of its shareholders to build handsome homes, and while it is doing good work for the town, it is making big profits for its shareholders.

All Aboard for the Picnic.

Geo Koppe will take a load of passengers in his bus to attend the picnic at Truckee. He will leave Reno to-day at 3:30 p. m., returning Sunday morning. Apply early for seats. Round trip \$2.

16

Cakes Without Eggs.

Observing housekeepers quickly learn that Dr. Price's Cream Baking Powder is far superior to other brands in the fact that they never fail to make the finest pastry, and if they wish to be economical they can dispense entirely with eggs and can use a less quantity of butter for shortening purposes. The advantage is not alone in the saving effected but in avoiding the trouble and frequently the great difficulty of securing eggs that are fresh. This is often a serious trouble.

Cakes of various kinds from the informal Griddle Cakes to the stately Bride Cake can be made with Price's Cream Baking Powder, which insures light, sweet and handsome cakes; or when used for Griddle Cakes to be eaten hot enables their production in the shortest space of time, always tender and delicious.

Dr. Price's is the only Baking Powder that contains the white of eggs. None so pure! None so wholesome!

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

FIFTY-CENT COLUMN.

A Long Ride on a Snowbank.

Friday morning as ten miners were going from the Enreka Mills boarding house to what is called Rough and Ready, with dinner pails in hand, to begin their day's work, the soft snow above the trail on the mountain side began to slide. In a moment the men were being carried down the slope with great speed. The snowslide separated, one part carrying five of the men down a slope about 700 feet, the other part continuing down about 1700 feet, leaping over a precipice probably thirty feet high and carrying the five men with it. At different times all the men but one were under the snow and, strange to say, but one man was injured. It was first thought his leg was broken, but we learn it was only sprained and bruised. Another man was almost smothered. —Palmas County Bulletin.

A Groom's Error.

A bashful and youthful bride couple from the rural districts had a painful experience at Danbury circus day. The young husband wrote his own name and his wife's on separate lines of the hotel register and the parlour clerk assigned them to separate rooms. Each waited for the other to set the matter straight, but it was only after a terribly lonesome hour that the bride plucked up her courage and her marriage certificate and descended to interview the clerk. She held out the document mutely and the situation at last dawned upon him. The banished bridegroom was summoned from his seclusion and the curtain fell amid profuse apologies. —New Haven Register.

Fires So Thick They Put Out the Lights.

About 9 o'clock Tuesday night Battle Mountain was infested with a cloud of tiny flies that drifted into the saloons on Front street in myriads, in many instances darkening the rooms and putting out the lights. When the pests had passed away it was found that the tops of the lamps were covered an inch and a half deep and the lamp chimneys choked. It would appear that these minute flies were attracted by the lights in the saloons, and in countless millions perished. —Central Nevada.

Enough to Replenish the Burning Lake.

The steamer that has been expected for several days with a cargo of sulphur has arrived. There are 4,500,000 pounds of brimstone in all, half of it being destined for Wayne, where it is to be made into sulphuric acid, and half for points on the Grand Trunk. The sulphur is valued at \$50,000. The vessel and cargo come from Palermo, Italy. —Eastern Argus.

University Statistics.

The new catalogue of the University of Pennsylvania shows 1,704 students, or twenty less than Yale, while the University of Michigan has 2,633, or just twenty less than Harvard. In the number of teachers Harvard now comes first, with 253; the University of Pennsylvania second, with 237; Columbia third, with 220; Yale fourth, with 153, and Michigan fifth, with 145.

The man who wrote to his wife in the country that he didn't know how to endure the heat was told to keep the gas turned down and not to play poker all night.

Eat Slow

And clean your mouth afterwards with SOZODONT, and your teeth will be in condition to do their work for years. Thousands of dyspeptics bolted their food because they had no good teeth to masticate properly. Chew fine, eat slow, and use SOZODONT.

Taken In.

A woman with a baby in her arms approached an innocent looking young man who was sitting in Central park yesterday. She asked him to hold the baby while she went to look at the moneys. As she did not return the young man thinks she must have been taken in by the baby constrictor or the rhinoceros, but the sparrow cop to whom he confided his suspicions is of the opinion that it was the young man who was taken in. —New York Evening Sun.

Two Things for Summer Use.

The two most valuable remedies to have in the house during the summer are Jamaica ginger and witch hazel, or hamamelis. The former will help most summer stomach disorders, and the latter is good for almost anything, from a consumptive hemorrhage to a bruised finger.

By freely bathing the feet with it every night before retiring, blisters and corns, which always increase in number and painfulness during hot weather, may almost certainly be prevented or cured.

It is valuable in cases of bleeding at the nose—often a result of overheating—when it should be freely drawn up into the nostrils.

Its cooling influence when rubbed on the brow and temples will help to drive away most headaches. A mixture of witch hazel and camphor is extremely soothing. —New York Press.

A commodious fireproof building has been erected in Riverfront street, New York, by a wealthy woman, to be used as a lodging house for women. For fifteen cents a comfortable bed can be obtained. There are conveniences for washing and ironing in the building.

There's a patent medicine which is not a patent medicine—paradoxical as that may sound. It's a discovery! the golden discovery of medical science! It's the medicine for you—tired, run-down, exhausted, nerve-wasted men and women; for you sufferers from diseases of skin or scalp, liver or lungs—its chance is with every one, its season always, because it aims to purify the fountain of life—the blood—upon which all diseases depend. The medicine is Dr. Pierce's Golden Medical Discovery. The makers have enough confidence in it to sell it on trial. That is—you can get it from your druggist, and if it doesn't do what it's claimed to do, you can get your money back, every cent of it.

That's what the makers call taking the risk of their words.

Tiny, little, sugar-coated granules, are what Dr. Pierce's Pleasant Pellets are. The best Liver Pills ever invented; active, yet mild in operation; cure sick and bilious head-aches. One a dose.

"August Flower"

Dyspepsia. There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am, I take one or two tea-spoonfuls before eating, for a day or two, and all trouble is removed."

NOTICE OF SALE OF REAL ESTATE

IN THE DISTRICT COURT of the State of Nevada, in and for the county of Washoe. In the matter of the estate of John Singleton, deceased. Notice is hereby given, that in pursuance of an order of the District Court of the State of Nevada, in and for the county of Washoe, made on the 26th day of June, 1892 in the matter of the estate of John Singleton, deceased, the undersigned, the administrator of the said estate, will sell at public auction to the highest bidder, for cash, gold coin of the United States, and subject to confirmation by said District Court, on

Wednesday, the 10th Day of August, 1892

At 1 o'clock P. M., in front of the Court House door, at Reno, Washoe county, State of Nevada, all the right, title, interest and estate of the said John Singleton at the time of his death, and all the right, title and interest that the said estate has, by operation of law, or otherwise acquired, other than in or in addition to that of the said John Singleton at the time of his death, in and to all that certain lot, piece or parcel of land situated, lying and being in the town of Reno, Washoe county, State of Nevada, and described as follows, to-wit: Lot No. 14, Block G, as per official map of the town of Reno, Washoe county, State of Nevada.

Terms and conditions of sale, cash, gold coin of the United States, ten per cent of the purchase money to be paid on the day of sale, balance on confirmation of sale by said Court. Deed at expense of purchaser. R. H. SINGLETON, Administrator of said Estate.

JOHN SINGLETON, Administrator of said Estate.

FOR LITTLE FOLKS.

A Rat Circus.

Dourof, a Russian rat tamer, is exhibiting in Paris. He does wonders with rodents, of which he carries around several hundred. They play about his rooms in the hotel and at the theatre, and are as docile and obedient as well reared children.

To appreciate the patience of the trainer, you should see one of his exhibitions. Dourof makes his entire troop travel on a mechanical railway which runs on a track sixty feet in circumference. The railway has tunnels, station, semaphore and a train of several cars coupled to a locomotive. With move

ments of infinite gentleness he directs the rats upon the platform serving as a vestibule to the station. He makes them come out of their cage, caresses them, gives them their cue and persuades them so well that each keeps to his role without causing a perturbation among the troop.

One rat is trained to run toward the locomotive. He is the engineer, and his colleague, the fireman, follows him. The tender is filled and then the passengers enter the cars. One actor raises the lantern of the semaphore, and two or three others (passengers) seem to be feverishly seeking a refuge toward the station. They discover the beneficent inscription "For Men" and disappear. Still another passenger, a mamma, all white, with her young ones trotting after her. The station fills and heads are seen in every story. The clock strikes and the train starts, and finally returns to its starting point without accident.

The apprenticeship has been long, troublesome and beset with thorns. But when Dourof has succeeded on tapping with the left hand the rats that have approached a pole and on presenting them a seed with the right hand in making them climb inch by inch to an accessory in the form of a cat's head attached to the soffit curtain, there is nothing more that is astonishing to be had. —New York Evening World.

Teach the Child a Song.

Encourage the little ones to sing. Music lessens care and heartache. Often and often the words of a song, the sweet melody, linger in the heart after the voice is silent, and keep alive the courage which had almost died, anxiety and heart pain cause heart disease, and after that quickly comes death. Song sweetens toil, and it is imperative that parents and teachers should aim to increase this means of happiness for the children, if for no other reason than to strengthen their minds and hearts for the labors to be borne in mature years. —Jewish Messenger.

Behind the Sheet.

A row of children sit behind a sheet hanging at one end of the room. The one left out comes and tries to guess who some figure is by feeling of the head and face through the sheet. No one must be touched except through the sheet. When the guesser has found out one of the persons behind the screen he or she goes behind, and after the new guesser has left the room all change seats. Then the guesser comes in and does as the first one did.

A Generous Little Fellow.

A little three-year-old, whose mother was mixing a simple cough medicine for him, watched the process and asked if it was good. He was permitted to taste it, and exclaimed: "It's awful good, mamma. Let's keep it all for papa." —London Tit-Bits.

Katharine Was Curious.

Katharine heard her mother say, "Consin Florence will shake in her shoes when she stands up to be married." A week after the wedding day came. Katharine said, "Mamma, let me go. I want to see Cousin Florence shake her shoes." —Exchange.

A Rainy Day.

Rain, rain, go away; Phoebe's in despair. Come again another day When the trees are bare; When the skies are gloomy, When the birds have flown, When there's not a blossom The bee can call his own; When the leaves are flying All about the lawn, When the wind is sighing For the summer gone— That's the time for raining, No matter how it pours, And Phoebe then is quite content To play all day indoors. —E. L. Sylvester in St. Nicholas.

NO OTHER Sarsaparilla possesses the Combination, Proportion and Process which makes HOOD'S Sarsaparilla Peculiar to Itself.
